

## JAPCO Pest Control Ltd

### PREPARATION FOR CARPET BEETLE TREATMENT

*It is necessary for you to remove all pets, cover fish tanks and unplug air filter. Remain out of the unit for approximately 6 hours following the treatment.*

Vacuum all floor areas of the home including carpets, rugs, clothing drawers, furniture and closets.

Any Wool or natural Fiber clothing should be tumble dried in a hot dryer for at least 45 minutes.

All furniture should be pull away from the baseboards at least .6 meters.

All clothing drawers should be emptied and placed on the floor.

#### **After Treatment Information**

Ventilate treated areas either by opening windows and doors or through use of air exchange/ventilation systems.

Following the treatment do not wash or vacuum baseboard areas for approximately 3 weeks. Clean counter tops or any exposed food contact surfaces before using.

Expect to see some activity as the pesticides will flush the beetles from their hiding places.

Allow at least 30 days for complete control.
