

## JAPCO Pest Control Ltd.

### INSPECTION INFORMATION SHEET

Inspections are designed to determine all pest activity and are not limited to any particular area.

When inspecting a unit for pests, it is necessary to examine the **Bedroom, Living Room, Kitchen, and any other areas where pest may hide (this includes under your bedding).**

In order to properly identify activity in your home the technician may need to inspect items inside (but not limited to) your cupboards, dressers, closets, mattress and bed frame.

Some disruption to your belongings should be expected.

**You are not required to vacate for a Pest Inspection**
