

## Wildlife Trapping

JAPCO offers wildlife control services for Commercial and Residential clients.

### Wild Life Control on your property

JAPCO is proud to offer live capture services to property Managers and owners. We will review your wildlife situation and determine the most effective trapping method.

### Live Capture Service

We work hard to equip your homes and business with traps designed to combat your specific wildlife problems.

Our traps seek to reduce the non-target animal trappings and keep distress to an absolute minimum.

JAPCO Pest Control Ltd.'s pest control specialist can restrict access to Raccoons, Squirrels, Skunks, Birds, and other small animals into buildings and other areas.
